Dear Potential Robin's Nest Parents:

We have had the pleasure of sending both of our children to Robin's Nest over the last few years. As you know, making the right decision for your child(ren) and family is often difficult. But Robin helped us make our choice easier. From the moment our son started, we felt we had partnered with someone who would always have the best interest of our child(ren) with every interaction. We felt the same when our daughter started a year later. Additionally, we joined a community of caring and concerned parents who wanted the best for their children.

After more than 3 years at Robin's Nest, I can genuinely say we wouldn't have made any other choice for our children. They were always happy and well cared for, and loved going to Robin's Nest each and every day! We always knew they had a good day when they come with artwork they took pride in sharing, a little dirt on their face and a big smile. More, they have been both been more than adequately prepared for Kindergarten. The transition of our son to Kindergarten went brilliantly, and we expect our daughter to transition well this coming Fall, too. Robin's blend of creative play, outdoors activities and academics make for a rigorous yet fun program for all the kids, and our children genuinely thrived in her care.

Sincerely,

Laura Dantes
